THE SHAKER
COLLECTION
2025

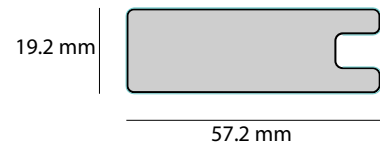

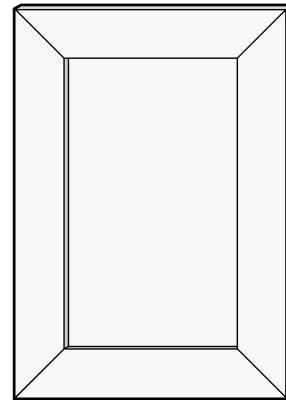

TOFINO SHAKER

TOFINO shaker doors are engineered with precision-machined MDF profiles, delivering a refined, authentic look that elevates any interior design. The Door Frame is 2 1/4" wide and available in both Cope & Stick and Mitered construction options. Tofino doors can be manufactured with glass inserts installed and fully captive within the frame creating a truly integrated look.

Cope & Stick

Mitered

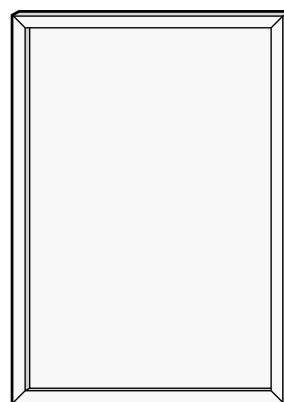

MADRID SLIM SHAKER

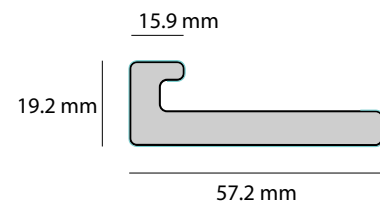

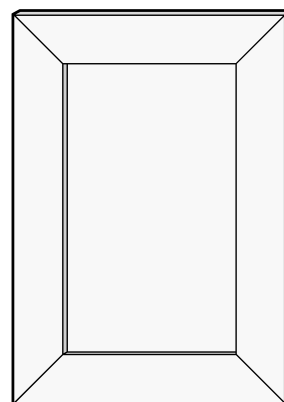

MADRID slim shaker doors are a true 3/4" thick door with a 5/8" frame on the face and a 2-1/4" frame on the back. Compared to other slim shaker styles on the market, our door is more precise, better value, and easier to machine for hinge* and handle holes. Madrid doors can be manufactured with glass inserts such as mirror or one of our many opaque decorative glass offerings.

*Maximum 12mm hinge drilling depth is recommended.
